

HASNAE AHOUZI

STUDENT IN DIGITAL ENGINEERING and AI
Specialized in **ROBOTICS, COBOTICS**

Professional project

My passion for artificial intelligence and robotics drives me to design intelligent systems that enhance human-machine interaction. My goal is to contribute to innovative and concrete projects that have a significant impact on society, while also advancing sustainable and accessible technological solutions.

Education

- Sep 2023 – Present
Engineering in Robotics & Cobotics
Euromed University of Fes (UEMF), Morocco – EIDIA School of Digital Engineering and AI
- Sep 2019 – Jun 2021
Preparatory Cycle in Engineering
National School of Applied Sciences (ENSAT), Tangier – Morocco

Technical skills

Programming & Embedded Systems

- Languages: C, C++, Python, Assembler (Intel 8086)
- Embedded programming: Embedded C, MicroC, VHDL (Quartus, ModelSim)
- Cards & microcontrollers: PIC16F84A, FPGA Cyclone V, Arduino
- Simulation environments: Proteus 8, Simulink, EMU8086
- Modeling & simulation tools: MATLAB/Simulink
- Image processing and Deep Learning with: Python, OpenCV, Jupyter

Software & Web Development

- Front-end: HTML, CSS, JavaScript
- Back-end: PHP, Laravel
- Database: MySQL
- CMS: WordPress
- Methodologies: Agile (Scrum), V-cycle
- Project management: Trello, Jira

CAD, Design & 3D Modeling

- Mechanical design and 3D printing: Catia
- Graphic design & UI/UX: Blender, Figma

Contact

Residence UVILLAGE, Route Meknes Rond point Bensouda-30000-FES, Morocco

Academic Projects

Free-Fall Detection System : Real-time logic in Simulink, following Model-Based Design (MIL/SIL).
FIR Filter on FPGA : Implemented with VHDL, tested via Quartus/ModelSim on Cyclone V.
Secure Locking System : Embedded design with PIC16F877A, RFID, keypad, and LCD (MicroC/Proteus).
SkinAid Web App : AI-based skin disease detection using Deep Learning and Image Processing (Jupyter/Google Colab).

Work history

JULY 2023–SEPTEMBER 2023 (Tangier)

Intern at: **Smart Automation Technologies**

- Development of single page applications and websites (MEAN stack)

JULY 2022–AUGUST 2022 (Tangier)

Intern at: **YourAWS**

- Migration of WordPress websites to Amazon Web Services (AWS) via EC2

Languages

Arabic: Advanced

Spanish: Beginner (A2)

French: Advanced

English: Fluent (B2)

Hobby/Interest

AI | Sport | Volunteering | Travel
